**NOTES:**

Past performance should not be taken as an indication of future performance.

'n/a' means no monies were invested during this period, so no performance is provided.

We calculate investment performance using the withdrawal unit price for each investment option in accordance with industry standards. Investment performance is calculated net of taxes, levies and fees such as the investment fee, the investment performance fee, the administration fee and the expense recovery fee. However when calculating investment performance we do not take into account contributions taxes, withdrawal fee and any discretionary ongoing fees such as insurance fees and personal advice fees.

Investment performance shown is net of all fees applicable to a member with a \$10,000 account balance, including the \$78 pa administration fee. If you have made an investment selection and your account balance is greater than \$20,000, then the \$78 fee does not apply and the performance of your investment will be greater than that shown above. You will also receive a discount on the percentage administration fee if your plan's balance is greater than \$100,000 and the performance of your investment will be greater than that shown above.

~ Where an investment option has less than one year of performance data, the 'since inception' performance figure reported is the actual return the fund has achieved to date (therefore, short-term performance).

(1) Effective 15 September 2016, Investors Mutual Industrial Share Fund renamed Investors Mutual All Industrial Share Fund.

(2) Effective 9 October 2016, the investment fee for the Ausbil Australian Emerging Leaders Fund will increase from 0.56% pa to 0.85% pa.
