

Suncorp MPOS Mobile payment processing

MPOS explained

Suncorp's MPOS terminals are suitable for businesses requiring a mobile solution with lower transaction volumes and the requirement to email or SMS the receipt to their customer. MPOS is an app loaded on a smart phone or tablet which connects via bluetooth to take card payments.

Who it's for

Suncorp's MPOS is suitable for a range of industries and businesses including:

- Mobile tradespeople like electricians, mechanics and plumbers.
- Mobile vets.
- Mobile pest and building control inspectors.
- Mobile hairdressers and many more mobile businesses.

What it offers

- Daily settlement, seven days a week, which means you can use your cash the next day.*
- The ability to SMS or email customer receipts.
- A portal to see your processed transactions.

How MPOS works

- Step 1.** Enter the amount of the sale or select the product from your product library.
- Step 2.** Tap the Pay button.
- Step 3.** Select the method of payment.
- Step 4.** Tap, insert or swipe the customer's card.

Merchants are able to process the following transaction types using Suncorp's MPOS:

- Purchase.
- Refunds.

Merchants are able to process the following card types using Suncorp's MPOS:

- All major credit and debit cards (Australian and international).
- American Express (subject to successful application and approval from American Express).
- Diners Club (subject to successful application and approval from Diners Club).
- Apple Pay, Google Pay, Samsung Pay and other "Pays".
