## Auto Rebalancing (If Applicable)uto Rebalancing (If Applicable)

If you're investing this money into different investment options from your existing investment strategy (your future investment options), we'd like to check a couple of things.

Does this mean you want to cancel auto-rebalancing on your account? Unless you tell us otherwise, we'll leave auto-rebalancing in place on your account.

I'd like to continue using auto-rebalancing using my existing instructions.

I have nominated a percentage based split for this contribution in column A of the Investment Selection section of this form, I'd like to continue using auto-rebalancing and change my existing investment strategy (my future investment options) to the options shown in column A of the Investment Selection section of this form.

I'd like to cancel auto-rebalancing.

If you continue using auto-rebalancing and change your existing investment strategy (your future investment options) to the options shown in column A of the Investment Selection section of this form, we'll switch all your current investments (including this additional investment) to the investment strategy you have nominated in column A of the Investment Selection section of this form at each rebalancing date, which might not be what you want if you're choosing different options for this investment.

If your auto-rebalancing is cancelled now, you can easily start it again later (and nominate other investment options) by completing an investment switch online at [suncorp.com.au](http://suncorp.com.au).
