\* On 27 May 2017, balances in the Everyday Super Pension investments options were transferred from the portfolios shown in the Notes page of this report to those shown above. Please refer to the Notes page for performance of the terminated portfolios for the last full reporting period (ending 30 April 2017).

**NOTES:**

Past performance should not be taken as an indication of future performance.

We calculate investment performance using the withdrawal unit price for each investment option in accordance with industry standards. Investment performance is calculated net of taxes and fees such as the investment fee, the investment performance fee, the administration fee, member fee and the expense recovery fee. However when calculating investment performance we do not take into account contributions taxes, the contribution fee, deferred contribution fee, withdrawal fee and any discretionary ongoing fees such as insurance premiums and adviser service fees. All fees are quoted on a gross of income tax basis and include GST and stamp duty (where applicable).

~ Where an investment option has less than one year of performance data, the 'since inception' performance figure reported is the actual return the fund has achieved to date (therefore, short-term performance).

**Terminated Investment Option Performance ending 30 April 2017**

The following portfolios were terminated effective 27 May 2017. Returns for the final full reporting period ending 30 April 2017 are provided below. Members invested in these portfolios had their balances transferred to the new Everday Super and Everday Super Pension portfolios shown on Pages 1 and 2 of this report on 27 May 2017.
